

The Predoctoral Researcher-Initiative Session PRIS 2018

on 22nd MDO and 33rd JSSX

Next-generation research for leading the world in pharmacokinetics

Time and Place

Oct.2nd, 2018 (Tue.)
10:00~12:00
at Kanazawa art Hall

Speakers

Kazuya Maeda (The University of Tokyo)
Educational lecture

How to enjoy the scientific meeting at 120%

Takumi Kawanishi (Kanazawa University)

Impact of altered intestinal and renal expression of xenobiotic transporters on pharmacokinetics of imatinib in cholestasis

Misaki Yamashita (Nagoya City University)

Development of a novel blood brain barrier model derived from human iPSCs

Shizuka Hozuki (Chiba University)

Exhaustive prediction of drug-drug interactions caused by inhibitions of multiple CYP species by integrated use of in vitro & in vivo information

Takeshi Susukida (Chiba University)

Usefulness of chimeric HLA transgenic mice for the evaluation of immune-mediated idiosyncratic drug toxicity

Shotaro Maedera (The University of Tokyo)

GLUT6 works as a modulator of inflammatory responses in macrophages

Student Mixer

Time and Place

Oct.3rd, 2018 (Wed.)
19:00~
Budoonoki Kanazawa
Forus
(6th Floor)

Organizers

We are looking forward to seeing you!

Tatsuki Mochizuki (The University of Tokyo) • **Hiroki Kuroda** (Tohoku University) •
Masaki Takahashi (Tokyo University of Pharmacy and Life Sciences)
