

Plenary Lecture 1

Room A October 2 (Tue.) 8 : 45~ 9 : 45

Chair : James Halpert University of Connecticut, CT, USA
 M. Almira Correia Department of Cellular and Molecular Pharmacology,
 University of California San Francisco, CA, USA

PL-01**Microsomal Drug Oxidation: from a black box to a well understood multi-enzyme system**

Tsuneo Omura

Emeritus Professor, Kyushu University

Education:

B.Sc. Chemistry, 1953, University of Tokyo D.Sc. Biochemistry, 1961, University of Tokyo

Positions held:

1953-1955 : Instructor, Department of Chemistry, Faculty of Liberal Arts and Science,
Shizuoka University

1956-1960 : Lecturer, Department of Chemistry, Shizuoka University

1960-1970 : Assistant Professor, Institute for Protein Research, Osaka University,

1964-1965 : Visiting Scientist, Johnson Research Foundation, University of Pennsylvania,
USA

1965-1966 : Visiting Scientist, Department of Cell Biology, Rockefeller University, USA

1970-1986 : Professor, Department of Biology, Faculty of Science, Kyushu University,

1986-1994 : Professor, Department of Molecular Biology, Graduate School of Medical
Science, Kyushu University,

1994- : Emeritus Professor, Kyushu University,

1995-1999 : Visiting Professor, Department of Biochemistry, Vanderbilt University School
of Medicine, USA
